

You may be a new member of White Tiger, and noticed students with colored stripes on their belts. The stripes are given when a student has shown his or her instructor that they can do a certain part of the curriculum with out any assistance. You must earn all of your stripes before you can test for your next belt. Below see a picture with the different stripes, and what they represent. As always, never hesitate to ask your instructor if you have questions...that's what we are here for!
